

for 40 years the Wisconsin Association of Family and Children's Agencies has worked to improve the lives of families, individuals and children in Wisconsin.

WAFCA members are private, for profit and nonprofit human services agencies providing support to individuals and families in partnership with state and county government. Our member agencies provide a wide array of prevention and supportive services including home visiting, parent coaching, mental health, substance use treatment, foster care and residential services.

WAFCA provides a forum connecting human services leaders. Together we amplify the voice of our sector and the more than 250,000 individuals and families that we serve each year.

To learn more about WAFCA and member benefits, contact:

Kathy Markeland, Executive Director at 608.257.5939 or info@wafca.org
